## KOFAX CONTROL SUITE

## SOLUTIONS & SERVICES PORTFOLIO

**Kofax ControlSuite™** is the only solution on the market today that can actively **manage, secure, and govern** virtually every aspect of information distribution in documents via printing, scanning, routing, and storing throughout the enterprise.

Designed to be implemented across any combination of cloud or internal systems, technologies, and devices, ControlSuite is an embedded solution within select Brother printers and MFPs.

### Print Management

#### KOFAX EQUITRAC®

- ▶ Follow-You printing and reporting
- ▶ Quote management and chargeback
- ▶ Rules and routing
- ▶ Business Connect mobile print release and submission

### Capture

#### KOFAX AUTOSTORE®

- ▶ Capture image enhancements, OCR, file conversion
- ▶ 1D and 2D barcode detection
- ▶ Mobile capture
- ▶ Authentication via HID external card reader, NFC, and username / password

### Output Management

#### KOFAX OUTPUT MANAGER™

- ▶ Complete business rules and workflow
- ▶ Network folder, IPP, LPR, LPD, Email Printing, FTP
- ▶ Basic capture with OCR
- ▶ Business Connect mobile print release, submission, and capture

**Kofax ControlSuite offers an extensible platform of capabilities to solve business process challenges.**

#### Document Security

Only release print once authenticated at the printer, or to redact PII data automatically.

#### Document Workflow Automation

Initiate workflow from the MFP, mobile phone, or desktop.

#### Scanning & Document Routing

Securely automate manual data entry steps.

#### Business System Connectors

Robust set of connectors to input data to, including expansion into cloud based systems.

#### Mobile Workflows

Capture content from mobile devices, and release secure print documents using card authentication.

#### Document Conversion

Market leading OCR engine, with even greater accuracy for a wide array of document types and quick conversion speeds.

#### Document and Print Stream Transformation

Output management capabilities that can add greater security and intelligence into the print stream. Redact information and change content midstream.

#### Print Avoidance and Reduction

Print avoidance and reduction capabilities working across a hybrid MFP fleet.

#### Print Accountability and Auditing

Audit trail accounting for who brings data in, where data goes, who prints, and what is printed.

#### Cloud Deployable

Cloud deployable including in AWS and Azure.
