## Web Connect & Brother Cloud Apps

**brother**  
at your side

Web Connect is a built-in solution to upload scanned documents to or print documents directly from an online storage site using your compatible Brother device<sup>1</sup>. Access the cloud without a computer for the following services:

Google  
Drive™

Dropbox /  
Dropbox  
Business

Box /  
Box Business

OneDrive /  
OneDrive  
Business

**Evernote**

Evernote® /  
Evernote® Business

OneNote

SharePoint  
Online

### Convenient Built-in Feature

Connect directly to an online account without a computer<sup>1</sup>, with an optional PIN to restrict user access.

### Access, Scan, Print

Scan a document or image directly to your account, or upload from your USB memory stick. Also print documents directly from the site.

### File Formats

Scan to PDF, searchable PDF, Word, Excel, PowerPoint (Brother Cloud Apps), and other popular file formats.

The MFC-L6915DW enterprise monochrome laser all-in-one offers access to popular cloud services directly from the touchscreen display via Web Connect. Scan documents to and print documents from the desired service.

## Access Brother Web Connect in four easy steps:

- 1** Create an account with the desired service (go to step 2 if you already have an account).
- 2** Apply for Web Connect access via a one-time process to obtain a temporary ID using a computer.
- 3** Enter the temporary ID on the Brother device to enable access. Specify the account name as you would like it to be displayed on the machine, and a PIN code if desired.
- 4** The Brother device now has access to the registered service.

## Web Connect & Brother Cloud Apps

brother  
at your side

Brother Cloud Apps offers a built-in suite of innovative, cloud-based applications accessed directly from your compatible Brother device<sup>2</sup>. Capture and convert information directly from your machine – without using a computer.

### Scan to Searchable PDF

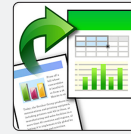

Scan a single- or multi-page hard copy document and convert it into a searchable PDF using Optical Character Recognition (OCR)<sup>2</sup>.

### Scan to Word

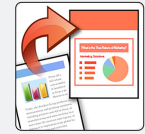

Scan a hard copy document into an editable text document with individual image elements in Microsoft Word, Excel, and PowerPoint formats. No conversion software or computer required.

### Scan to Excel

### Scan to PowerPoint

**Easy Scan to Email** enables you to send documents from a Brother device to a prepopulated email address without configuring any server details<sup>1</sup>.

**Scan to Mobile** allows you to retrieve a scanned document on a mobile device by scanning a QR code link on the front panel of a Brother machine<sup>3</sup>.

**Cloud Secure Print** enables password-protected printing over the Internet without using a printer driver<sup>2</sup>.

**Email Print** offers automatic remote printing without using a printer driver<sup>2</sup>.

**Fax Forward to Cloud or Email** automatically forwards incoming faxes to a defined cloud service or email address<sup>4</sup>.

The MFC-L9670<sub>CDN</sub> enterprise color laser all-in-one offers access to Brother Cloud Apps directly from the device.

<sup>1</sup> Requires an Internet connection and an account with desired service.  
<sup>2</sup> Requires an Internet connection.

<sup>3</sup> Requires an Internet connection and a QR code app on the mobile device.  
<sup>4</sup> Requires an Internet connection. Fax Forward to Cloud requires an account with the desired cloud service.
